KEY SKILLS

- Programming Languages: Java, JavaScript.
- Front End: HTML, CSS, Bootstrap, React.js, React Native, Material UI, TailwindCSS.
- Backend: Java – Node.js, Spring Boot, Spring MVC, REST API.
- Database: MySQL, Firebase Firestore, PostgreSQL.
- Tools & Platforms: Git, GitHub, EmailJS, Vite.
- Operating System: Proficient in Windows

PROFESSIONAL SUMMARY

Java Developer Associate, VSoft Solutions

November, 2024 – Present

- **Water Purifier E-commerce Website – Durga Traders**

Objective: Build a full-featured e-commerce platform for a local water purifier business.
Responsibilities: Developed the frontend using React.js with a modern UI using MUI and custom styling.
Created product cards with image, short description, and Add to Cart functionality.
Integrated Firebase Firestore for dynamic product storage and real-time updates.
Implemented Admin Panel using role-based Firestore access control to allow product updates.
Integrated CCAvenue Payment Gateway for secure checkout.
Set up EmailJS to automatically send order confirmation emails to admin and customers.

Tech Stack: React.js, Firebase (Auth + Firestore), CCAvenue, EmailJS, MUI

- **HRMS Web Portal (In Progress)**

Objective: Streamline HR operations like employee tracking, leave, and payroll.
Responsibilities:
Designed the UI for employee dashboard, leave request forms, and attendance logs using React.
Worked on backend APIs using Node.js and integrated them with MySQL/PostgreSQL.
Created role-based authentication and authorization for Admin, HR, and Interns.
Developed the Intern Portal module for tracking progress, tasks, and certificate downloads.
Setup logic for automated payroll calculation based on attendance and leave.

Tech Stack: React.js, Node.js, MySQL, Express.js, Firebase Auth

Internship, BOSCH

August, 2022 – October, 2022

- During a one-month internship, our team was tasked with the project "Digitalization of Checklists." We successfully executed the project and delivered a comprehensive presentation to senior management.

ACADEMIC – PROJECTS

- **Digitalization of Checklist**

Business Objective: The main goal of this project was to turn the manual checklist to digitalized checklist.

Approach: We directly approached the heads of each department to understand the challenges they faced with manual checklists. This project was developed to address those challenges effectively.

Tools Used: Microsoft Excel.

- **Employee Management System (CRUD Operation)**

Developed CRUD application using Spring MVC, Java backend, and Thymeleaf frontend. Implemented MySQL database integration for efficient employee record management. Demonstrated proficiency in full-stack development, RESTful API design, and MVC architecture Technologies: Spring MVC, Java, Thymeleaf, MySQL, HTML, CSS"

Tools Used: Spring MVC, Java, Thyme leaf, MySQL.

- **Ticket Tracker Application (CRUDS Operation)**

Developed CRUDS application using Spring Boot, Java backend, and Thymeleaf frontend. Implemented MySQL database integration for efficient ticket data management. Features include ticket creation, updating, deletion, and advanced search functionality.

Technologies: Spring Boot, Java, Thymeleaf, MySQL.

- **Todo Management Application (CRUD Operation)**

"Developed a full-stack Todo Application using React and Spring Boot. CRUD operations, and responsive design. Features include task management, completion tracking, and secure API integration. Demonstrated proficiency in modern web development, RESTful APIs, and software best practices."

Technology Used: Spring Boot, ReactJs, MySQL.

EXPERIENCE

Total Experience :8 months (Ongoing)

Destination	Company	Duration
Java Developer Associate	Vsoft Solutions	November, 2024 – Present

EDUCATION

Course	Institution	Year
Full Stack Development	Great Learning	2024
BE– Electrical and Electronics Engineering	Francis Xavier Engineering College	2023
12 th Std	Francis Xavier CBSE School	2019
10 th Std	Francis Xavier CBSE School	2017

OTHER ACHIEVEMENTS

- Under the student project plan, our team of four has been awarded with 7500 rupees under TNSCST (Tamil Nadu State Council for Science and Technology) for my final year project "Alignment and Tilling of Field Bund".
